

Packaging Requirements

The requirements below must be followed or may be subject to repackaging charges:

- Use Heavy Duty pallets only (must be in good shape and strong enough to hold the weight of the batteries)
- Good quality cardboard must be in between all layers (including top and bottom of skid)
- Batteries must be properly wrapped & strapped (a minimum of 5 times and secured to bottom of pallet)
- Batteries must be stacked squarely to the dimensions of the pallet
- Pallets must weigh approximately 3000 lbs each on average

Repackaging Charge: \$35 each

New Pallet: \$15 each
